Applicant						
Applicant THE PUBLIC HEALTH RESEARCH INSTITUTE OF THE CITY OF NEW YORK, INC.						
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.						
This international search report consist	s of a total of 5 sheet	s.				
X It is also accompanied by a copy of each prior art document cited in this report.						
1. Basis of the report						
			sis of the international application in the			
language in which it was filed, unless otherwise indicated under this item. the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).						
b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:						
contained in the international application in written form.						
filed together with the intern	national application in co	nputer readable form	n.			
furnished subsequently to this Authority in written form.						
furnished subsequently to the	is Authority in computer	readable form.				
the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.						
the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.						
	Certain claims were found unsearchable (See Box I).					
3. X Unity of invention is lacki	nvention is lacking (See Box II).					
4. With regard to the title,	•					
X the text is approved as subr	nitted by the applicant.					
the text has been established	by this Authority to rea	d as follows:				
			,			
5. With regard to the abstract,						
X the text is approved as subr	nitted by the applicant.					
the text has been established Box III. The applicant may, search report, submit comm	within one month from the	, ,, , , , , , , , , , , , , , , , , ,	·			
6. The figure of the drawings to be p	ublished with the abstract	is Figure No				
as suggested by the applican	nt.		X None of the figures.			
because the applicant failed	to suggest a figure.		Trong of the figures.			
because this figure better ch	naracterizes the invention					

International application No. PCT/US00/12197

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)			
This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:			
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:			
2. Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:			
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).			
Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)			
This International Searching Authority found multiple inventions in this international application, as follows:			
Please See Extra Sheet.			
1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.			
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.			
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:			
4. X No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-20			
Remark on Protest The additional search fees were accompanied by the applicant's protest.			
No protest accompanied the payment of additional search fees.

A61K 38/00, 39/00, 39/02, 39/04; C07H 21/02, 21/04; C07K 1/00, 14/00; C12N 1/12, 1/20; C12P 19/34, 21/04, 21/06

A. CLASSIFICATION OF SUBJECT MATTER: US CL :

424/185.1, 234.1, 248.1; 435/69.1, 71.1, 91.1, 253.1; 530/300, 350; 536/22.1, 23.1, 23.7

BOX II. OBSERVATIONS WHERE UNITY OF INVENTION WAS LACKING This ISA found multiple inventions as follows:

This application contains the following inventions or groups of inventions which are not so linked as to form a single inventive concept under PCT Rule 13.1. In order for all inventions to be searched, the appropriate additional search fees must be paid.

Group I, claims 1-20, drawn to DNA, vector, transformed cells, polypeptides, and a first method of use for diagnosis in vivo.

Group II, claims 21-24, drawn to second method of use for diagnosis in vitro using cells.

Group III, claims 25-28, drawn to third method of use for diagnosis in vitro using antibodies.

Group IV, claims 29-36, drawn to fourth method of use for vaccination.

The inventions listed as Groups I-IV do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the DNA is a single inventive concept, and as such the corresponding vectors, transformed cells, polypeptides encoded by the DNA, and a first method of use of the polypeptides are included in the first invention. The remaining Groups II-IV are additional methods of use, not requiring the DNA, but can utilize isolated and purified polypeptides obtained from M. tuberculosis.

NOTES TO FORM PCT/ISA/220

These Notes are intended to give the basic instructions concerning the Gling of emendments under Article 19. The Notes are based on the requirements of the Petent Cooperation Treaty and of the Reguladess and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the PCT Applicant's Guide, a publication of WIPO.

In these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19

The applicant has, other having received the international search report, one apportunity to amond the claims of the international application. It should however be complexized that, since all parts of the international application (claims, description and dervings) may be amonded during the international polintarry examination personals, there is usually no need to file amondments of the claims under Article 19 except where, e.g. the applicant would the inter to be published for the purposes of psychologic protection or has exother reason for amonding the claims before international publication. Purchasence, it should be complexized that provisional protection is available in some States only.

What parts of the international application may be amended?

The claims only.

The description and the deswings may only be amended during international preliminary examination under Chapter IL

When? Within 2 meeths from the date of transmitted of the interactional search report or 16 meeths from the priority date, whichever these limit expires late. It should be noted, however, that the assendments will be considered as having been received on time if they are received by the interactional Burner other the expiration of the applicable time limit but before the completion of the technical population for interactional publication (Rule 46.1).

Where not to the the emendments?

The emendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 44.2).

Where a domand for international prelimit: ry examination has been! a filed, see below.

How? Either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed.

A replacement short must be submitted for each short of the claims which, on account of an amendment or amendments, differs from the short originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabic numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are renumbered, they must be numbered consecutively (Administrative Instructions, Section 205(b)).

What decuments must/may accompany the amendments?

Letter (Section 205(b)):

The emendments must be submitted with a letter.

The letter will not be published with the international application and the amended claims. It should not be confounded with the "Statement under Article 19(1)" (see below, under "Statement under Article 19(1)").

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled;
- (iii) the claim is new;
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

NOTES TO FORM PCT/ISA/220 (continued)

The following examples illustrate the manner in which amendments must be explained in the occompanying letter:

- 1. [Where originally these were 46 claims and after amendment of some claims there are \$1]:
 "Claims 1 to 29, 31, 32, 34, 35, 37 to 46 replaced by amended claims beering the same numbers; claims 30, 33 and 36 unchanged; new claims 49 to \$1 added."
- Where originally there were 15 claims and after amendment of all claims there are 11]:
 Claims 1 to 15 replaced by amended claims 1 to 11."
- (Where originally these were 14 claims and the smeadments consist in cancelling some claims and in adding new claims):
 "Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added," or
 "Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."
- 4. [Where verious blads of amendments are made]:
 "Claims 1-10 unchanged; claims 11 to 13, 15 and 19 cancelled; claims 14, 15 and 16 replaced by amended claims 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."

"Statement under Article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments neight have on the description and the derwings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the senended claims.

The statement should be brief, it should not exceed 500 words if in English or if immediated into English.

It should not be confounded with end does not replace the letter indicating the differences between the claims as filled and an amended. It must be filled on a separate shoot and must be identified as such by a heading perfectly by using the words "Statement under Article 19(1)."

It should not contain any dispensing comments on the international search suport or the selevance of citations contained in that asport. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

In what language?

The amendments must be made in the language in which the international application is published. The letter and any statement accompanying the amendments must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Consequence if a domand for international preliminary examination has already been filed?

If, at the time of filing any amendments under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the same time of filing the amendments with the International Bureau, also file a copy of such amendments with the international Preliminary Examining Authority (see Rule 62.2(a), first sentence).

Consequence with regard to translation of the international application for entry into the national phase?

The applicant's attention is drawn to the fact that, where upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated/elected Offices, instead of, or in addition to, the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see Volume II of the PCT Applicant's Guide.
